

Bhumika Sahu

FULL STACK DEVELOPER

Madhya Pradesh, India — bhumil6124@gmail.com — +91 8717912832
github.com/Bhumika-Sahu-bit — linkedin.com/in/bhumika-sahu — [Portfolio](#)

Professional Summary

Full Stack Developer specializing in the MERN stack, with hands-on experience building AI-powered applications, cloud-based platforms, and scalable web solutions. Proficient in React.js, Node.js, Express.js, and MongoDB, with strong REST API design, authentication, and third-party integration skills. Shipped 4 production-deployed full-stack applications — including a cloud IDE and an e-commerce platform with live payment processing — plus a paid internship and a freelance client engagement, all delivered on independent, sprint-style timelines.

Technical Skills

Languages: JavaScript, C++, C, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Framer Motion

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Socket.io, PHP

Databases: MongoDB, MySQL, IndexedDB

AI & APIs: Groq API, Gemini API, OpenRouter API, Glot.io API

Tools & Platforms: Git, GitHub, Postman, Docker, Redis, Vercel, Render, Cloudinary, Clerk Auth, CashFree, EmailJS, Nodemailer

Experience

Web Development Intern — TechnoML

Feb 2025 – Mar 2025

- Shipped responsive, cross-browser web pages using HTML5, CSS3, and JavaScript by following production-level coding standards under senior engineer supervision — earning an "Excellent" performance rating.
- Fixed 15+ cross-browser rendering bugs (Chrome, Firefox, Safari) during QA passes, cutting reported layout issues to zero before final client handoff.
- Adopted the Git branching and PR review workflow used by senior engineers, catching and fixing 3+ code-quality issues before merge.

Freelance Developer — Kota Refrigeration

2025 — Live

Remote

- Delivered a fully responsive business website end-to-end — from requirements gathering to deployment — by independently managing the project lifecycle, giving the client its first digital presence.
- Improved customer inquiry response time by integrating EmailJS for real-time contact-form submissions, eliminating manual follow-up delays.
- Ran solo, 1-week sprint cycles with the client — collecting feedback, shipping revisions, and redeploying — taking the site from concept to live launch in under 3 weeks.

Projects

Multi-Code IDE (Cloud-Based Code Editor) — Live — GitHub

2026

React, Node.js, Express, MongoDB, Clerk Auth, Monaco Editor, Glot API

- Built a cloud-based IDE supporting multiple programming languages with real-time code execution.
- Integrated Monaco Editor for a VS Code-like coding experience and Clerk for secure authentication.
- Developed backend APIs for project management and code execution.

Ganesh Art Jewellery (Full-Stack E-Commerce Platform) — Live — GitHub

2026

React, Node.js, Express.js, MongoDB, JWT, Cashfree, Tailwind CSS, Cloudinary, Socket.io

- Developed a production-ready e-commerce platform with user authentication, product browsing, order management, and secure checkout functionality.
- Integrated Cashfree payment gateway and implemented a complete shopping workflow from product discovery to order placement.
- Built an admin dashboard for managing products, categories, users, orders, and platform operations.

AI Website Builder — Live — GitHub

2025

MERN Stack, Groq API

- Developed an AI-powered platform that generates complete websites from natural language prompts.
- Implemented dynamic code generation with live preview functionality.
- Designed backend services to process AI responses and manage project structures.

Prompt Hub (AI Prompt Management Platform) — Live — GitHub

2026

React, Node.js, Express.js, MongoDB, Redis, Docker, Docker Compose, Nginx

- Built a full-stack AI prompt management platform with React, Node.js, Express.js, and MongoDB, supporting prompt discovery, likes, favorites, and authentication.
- Implemented Redis caching and cache invalidation for prompts and user favorites, reducing repeated database queries and improving backend performance.
- Containerized the frontend and backend using Docker and Docker Compose, with Nginx for frontend serving and cloud deployment.

Education

Bachelor of Computer Applications (BCA)

Makhanlal Chaturvedi National University of Journalism and Communication — Graduated June 2026 — CGPA: 8.3/10

Certifications & Achievements

- **Web Development Internship Certificate** – TechnoML (Mar 2025), performance rated Excellent. [Certificate](#)
- **Freelance Project Delivered** – Successfully developed and deployed a business website for Kota Refrigeration.
- Built and deployed 4 production full-stack and AI-powered applications, plus 15+ smaller side projects.
